

A DECLARATION OF INTERDEPENDENCE

We

are connected.
are many.
all dream of a better world.

the pace of change is accelerating and the challenges we face are more global and complex than ever before. new ways of thinking and working collaboratively are needed to address these issues.

We must work inclusively across cultures, generations, organizations, and networks, to champion the role of youth.

We will challenge old paradigms, move beyond divisions, and hold our leaders accountable.

We can harness technology to co-create a peaceful, sustainable planet for all.

Together, we will help to grow young people as leaders; enabling them to change the world.
